

# Gotham SOC as a Service

Powered by Arctic Wolf Networks

## General Overview

With Gotham's SOCaaS, powered by Arctic Wolf Networks, your company gains access to 24x7 monitoring, advanced threat detection, and rapid incident response without the overhead of building and maintaining an in-house SOC. By streamlining monitoring and threat management, SOCaaS helps reduce operational costs and staffing challenges.

### Operational Impact

**24x7 monitoring** across networks, endpoints, cloud, and SaaS environments to detect, respond to, and remediate cyber threats.

**Broad visibility** via existing log sources, EDR, cloud telemetry, Sysmon, and network sensors.

**Advanced analytics** and threat detection tailored to modern attack vectors.

**Active containment** and response capabilities to isolate threats before escalation.

**Monthly security risk rating** and reporting powered by SecurityScorecard.

### Enterprise Advantages

Security posture enhancement through continuous monitoring, guided remediation, and custom rule implementation.

Cost-effective SOC alternative, supporting mid-size to enterprise clients amid talent shortages.

Scalability and compliance support across hybrid environments.

Full-service incident response team available 24x7, providing a 1-hour response time to help stop attacks and restore operations.

### Engagement, Pricing, and Terms

Our flexible engagement model is designed to meet your specific needs. Services are all-inclusive making support costs manageable and predictable.

*Gotham's SOCaaS has significantly reduced our time chasing false positives ensuring we focus on what's important.*
