

Managed Vulnerability & Prioritization

Powered by Tenable

General Overview

Vulnerabilities emerge daily and the challenge is knowing which pose the greatest risk and demand immediate attention. Our Managed Vulnerability & Prioritization Service helps organizations focus their resources where they matter most and provides the intelligence and guidance you need to act swiftly and confidently.

Operational Impact

Our certified experts have a proven track record of helping customers prioritize their most critical assets.

Continuous Detection & Assessment: Around the clock monitoring uses industry-leading tools to identify new vulnerabilities as they appear.

Expert Risk Prioritization: Security specialists contextualize vulnerabilities using real-time threat intelligence, business impact analysis, and exploitability data.

Actionable Recommendations: Prioritized remediation guidance arms teams with the strategic insights needed to efficiently address high-risk vulnerabilities.

Engagement, Pricing, and Terms

Our flexible engagement model is designed to meet your specific needs. Services are all-inclusive making support costs manageable and predictable.

Enterprise Advantages

Discovery & Inventory: Automated tools catalog apps, systems, and devices across your organization.

Vulnerability Assessment: Assets are evaluated for known vulnerabilities using up-to-date threat databases, ensuring comprehensive coverage.

Risk Scoring & Prioritization: Vulnerabilities are ranked based on severity, exploitability, and specific business operations.

Tailored Reporting: Reports highlight business-specific vulnerabilities and recommendations.

Strategic Guidance & Support: Experts are available to interpret findings and advise on remediation and risk reduction.

Gotham's Managed Vulnerability & Prioritization has helped us go from "whack-a-mole" to security maturity."
