

# Managed SASE

Powered by Cato Networks

## General Overview

Gotham's Managed SASE powered by Cato Networks delivers a secure, cloud-native, unified solution that enables zero trust, rapid deployment, operational efficiency and superior performance. Ideal for hybrid expansion and modern digital needs.

### Operational Impact

#### Fully Managed, End-to-End Service

- Full deployment, configuration, monitoring, and ongoing optimization.
- 24x7 support from certified SASE experts, no need to build in-house expertise.

#### Global Performance & Reliability

- Low-latency, high-performance access to cloud apps, data centers, and branch offices from anywhere in the world.

#### Zero Trust Security Built-In

- Access to resources allowed only via explicit policy definitions based on configurable criteria.
- Identity-based policies follow users across locations and devices.

#### Operational Simplicity

- One platform, one policy engine, one management interface.

### Engagement, Pricing, and Terms

Our flexible engagement model is designed to meet your specific needs. Services are all-inclusive making support costs manageable and predictable.

### Enterprise Advantages

**Unified, Cloud-Native Architecture:** True SASE experience with converged SD-WAN, Firewall-as-a-Service (FWaaS), Secure Web Gateway (SWG), cloud access security broker (CASB), zero trust network access (ZTNA), and advanced threat prevention.

**Private Backbone & Low Latency:** Global private backbone (100+ PoPs) ensures consistent, optimized connectivity worldwide, minimizing public internet unpredictability.

**AI-Driven Threat Intelligence & Performance:** Embedded AI/ML automates threat detection, policy tuning, and adaptive security, reducing manual effort and boosting security outcomes.

*"We now have global visibility, zero-trust access, and consistent performance for all users—without the complexity of managing multiple vendors."*
