

# AI Service Offerings

Gotham's **AI Professional Services** empower organizations to **unlock the full potential of artificial intelligence**, all while retaining **complete control** over data and infrastructure. Our expert team **architects, implements, and refines** enterprise-grade AI solutions that seamlessly operate across Azure cloud, on-premises, or hybrid environments. Every deployment is **meticulously tailored** to meet your **unique security, compliance, and operational needs**—ensuring **robust governance, transparency, and business value** at every step.

## Why Gotham?

- Deep enterprise infrastructure expertise applied to emerging AI Solutions
- Strategic partnership with Microsoft & Azure
- Experience serving regulated industries including healthcare, financial services, and manufacturing
- Commitment to delivering practical, business-driven technology solutions

## Key Differentiators

- Deploy where it makes sense – Azure, on-premises, or hybrid based on your requirements
- Data governance and security controls built in from day one
- Transparent AI with full audit trails and explainable reasoning
- Industry specific customization for healthcare, financial services, manufacturing, etc.

Contact us [AI@GOTHAMTG.COM](mailto:AI@GOTHAMTG.COM) for more information.

## Exceptional Value

Our AI services include:

- **AI Readiness Assessments** to identify high-value use cases and evaluate your data landscape
- **Custom AI architecture** design tailored to your security, compliance, and infrastructure requirements
- **Flexible deployment options** leveraging Azure AI Services, on-premises infrastructure, or hybrid models
- **Multi-Agentic, Knowledge Graph, and RAG implementations** for rich augmentation
- **Integration** with existing business systems
- Ongoing **optimization, training, and adoption support**

## Ready to Transform Your Business With AI?

Contact Gotham today to schedule an AI Readiness Assessment or explore a custom proof-of-concept designed for your organization's goals. Let's build your future together.
