

# Cybersecurity Testing Services

## General Overview

Cyber threats are accelerating and static defenses won't save you. Gotham's Cybersecurity Testing Services provide penetration testing, red/blue/purple teaming, and tabletop exercises that pressure-test your entire security posture before an attacker does. Every unexercised response plan is a liability. Strengthen your defenses, sharpen your team's reaction time, and close the gaps adversaries are looking for.

### Operational Impact

**Certified Offensive Security Experts:** Our team holds industry-leading offensive security certifications with 25+ years of hands-on experience.

**Battle-Tested Methodology:** Over 5,000 engagements across Fortune 500 and public-sector clients, combining human-led adversary simulation with cutting-edge tooling.

**Full-Spectrum Testing:** Penetration testing, red/blue/purple team exercises, and tabletop scenarios that stress-test your people, processes, and technology together.

**End-to-End Partnership:** From initial scoping through remediation guidance, Gotham stays engaged to ensure findings translate into measurable security improvements.

### Engagement, Pricing, and Terms

Our flexible engagement model is designed to meet your specific needs. Services are all-inclusive making support costs manageable and predictable.

### Enterprise Advantages

**Actionable Remediation Roadmaps:** Every engagement delivers prioritized findings with proof of exploitability, so your team can fix what matters most.

**Credential & Identity Validation:** Continuous password audits and our identity risk assessment uncover exposed credentials and weak directory policies before attackers log in.

**Security as a Service:** Purpose-built, fixed-fee managed security packages where Gotham's certified staff operate as an extension of your team, covering endpoint protection, privileged access management, and data loss prevention.

**Remediation Services:** Clear guidance and hands-on support help you reduce risk and drive measurable security improvements.

*Gotham found critical gaps we didn't know we had and closed them fast. We haven't had a single disruptive incident since."*
