# Strategic Vendor Partnerships

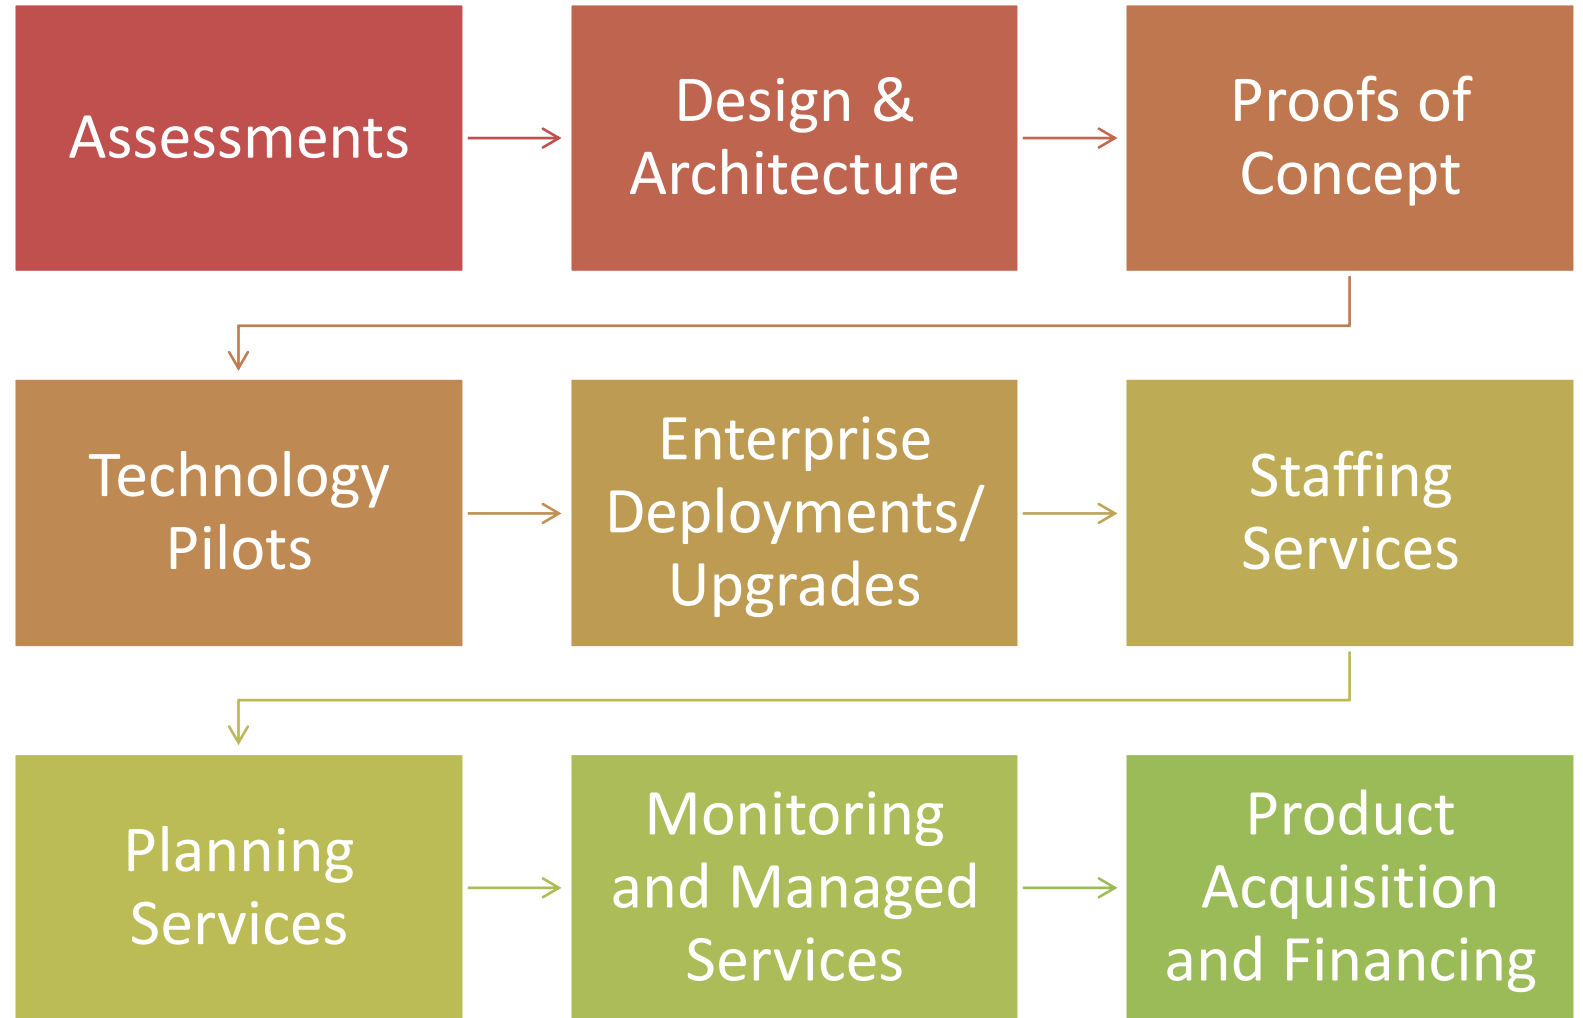

Gotham partners with an array of technology vendors to provide the best solutions to meet our clients' business objectives. Our advantage is our experience with a strategic selection of the technologies represented by our partners.

We maintain the highest partnership levels with our hardware and software manufacturers in order to provide the best solutions to our customers while maintaining our goal of lowering overall costs for our clients.

Visit [www.gothamtg.com/partners](http://www.gothamtg.com/partners) for a complete list of partners.

## RemoteAdmin for End User Computing (EUC)

- ✓ Maximize efficiency and reliability of your EUC environment.
- ✓ Our comprehensive remote administration services streamline daily tasks, image management, application installations, and policy modifications for **Citrix, VMware, and Microsoft AVD**.
- ✓ Rest assured with our daily event log reviews and remediation services.
- ✓ Includes 24/7 Monitoring and Support
- ✓ All designed for operational excellence.

# RemoteAdmin for EUC – All-Inclusive Services

- **Daily Administrative Tasks** - Streamline daily tasks. We manage user and group changes, application installations and modifications, and desktop image management, ensuring your EUC environment is up-to-date and tailored to your needs.
- **Event Log Review and Remediation** - Stay informed and secure. Our GothamWatch system provides system performance and event log alerts, followed by prompt remediation of identified issues, ensures continuous system health and performance.
- **Policy and Access Management** - Enjoy a secure, compliant EUC environment. We manage the addition and modification of policies, along with onboarding of new users, maintaining a secure and efficient environment.
- **Regular System Updates** - Stay updated. We develop and maintain a security patch lifecycle management program to minimize downtime. The security program is customized and tuned for each client's risk tolerance profile, based on both vendor recommendations as well as the organization's compliance policies.

# Cybersecurity Managed Services
